

Mobile and Industrial Valves

TOGETHER FOR THE BEST OF ALL SOLUTIONS

Seal Concept and Valve Technology

Hydraulic Solutions – Precise, Innovative, Reliable

Benefit from high-quality valves from the Bosch Rexroth Group for mobile and industrial applications. With over 5.000 hydraulic components in stock and comprehensive service, we provide fast solutions:

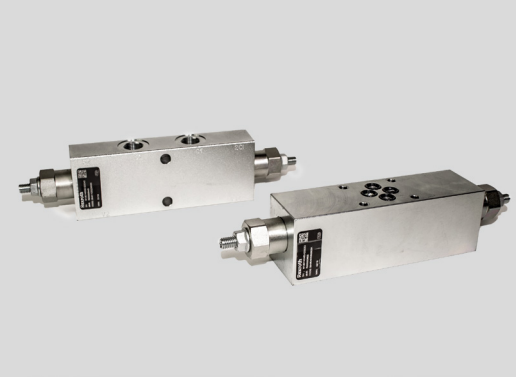

Cross-referencing to Seal Concept products, individual consultation on-site or by phone, as well as project planning, documentation, assembly, and in-house testing. We minimize downtime through fast deliveries and offer spare parts and repairs for hydraulic components.

Benefits and highlights at a glance

- High-quality valves, including those from the Bosch Rexroth Group, for mobile and industrial applications
- Over 5,000 different hydraulic components available immediately from stock
- Cross-referencing of third-party manufacturers to Seal Concept products
- On-site consultation by our field service or by phone
- In-house project planning, documentation, assembly and testing
- Spare parts service and repair of hydraulic components
- Minimization of costly downtime through fast deliveries

**Certified
Excellence**

A Bosch Company

Valve Technology

Delivering Power where it's needed

Leveraging our extensive engineering expertise and high-performance valves, we deliver exceptionally compact and tailored solutions for your specific requirements, handling working pressures of up to 700 bar and flow rates of up to 400 l/min.

Ordering valves from Seal Concept GmbH is that simple

You provide us with your hydraulic requirements.

We will clarify the technical details with you, design, and deliver ready-to-install hydraulic valves.

What else do we offer:

- Hydraulic Integrated Circuits for mobile and industrial applications
- Custom Compact Power Modules
- Sealing technology – custom and standard seals
- Over 15.000 seal sizes ex stock available for immediate deliveries
- Expert hydraulic consulting from Seal Concept GmbH

Test us!
